

4th Absa *Business Day* Supplier Development Awards winners revealed

The winners of the fourth annual Absa *Business Day* Development Awards have been announced, with Tiger Brands claiming the coveted title of Overall Winner.

Source: Tiger Brands

The annual awards programme recognises companies that are making significant strides in terms of their supplier development initiatives by acknowledging those who go beyond the scorecard, fostering learning, showcasing best practice and encouraging intersectoral collaboration to create scale and impact.

The 2021 awards were presented in partnership with Arena Holdings, Fetola and Cold Press Media, with winners announced at a hybrid event held at The Empire Conference and Events Venue in Johannesburg on Thursday, 18 November 2021.

“At Absa we are particularly pleased that since their launch in 2018, the Supplier Development Awards have grown significantly – in their importance, number of participants and, more importantly, their impact ... It is critical now more than ever for corporates in both the public and private sectors to use their supply chains to help develop and grow small suppliers, who are the real drivers of economic growth and job creation,” says Vusi Fele, chief procurement officer at Absa Group.
