*AfriGIS assists the insurance industry with extreme weather information*

Send warnings to clients which gives them the opportunity to take precautionary measures in a timely manner:

- Prevent and reduce damage to property and persons.
- Optimise claim ratios.
- Improve and ensure business continuity.
- AfriGIS, in partnership with SA Weather Service (SAWS), provides extreme weather feeds for current, historic and future events via a simple to use location sensitive [Application Programming Interface \(API\)](#).
- Purchase your [AfriGIS Lightning Report](#) or go to [AfriGIS Weather](#) to view the weather activity in your area.

*How can we assist?*
