PDC offers a range of Printronix Line and Serial Impact Dot-Matrix Printers

Issued by PDC   6 Sep 2022

PDC offers a range of Printronix Line and Serial Impact Dot-Matrix printers which will support your heavy duty non-stop, high-volume printing requirements to your low-volume page at a time of print demands.

Reverting back to articles written in 2012, the prediction was that by 2020 the world would be paperless!

Looking forward to the next 10 years, we see digital and paperless processes being put into place but paper processes are still being required as an intrinsic part of the supply chain and manufacturing processes.

The Printronix Linematrix printers offer extremely rugged, unlimited maximum monthly workload to meet and exceed the most demanding print requirements in a mission-critical print environment.

These printers also offer exceptional dependable operation in harsh environments withstanding humidity, extreme temperatures, and airborne contaminants.

OpenPrint functionality offers ease of connectivity to ERP or WMS applications generating PDF or PostScript output.

All this is offered with an ultra-low consumable cost per page is around 1/5th that of a laser when printing high monthly volumes. Printronix printers consume less energy than laser while generating far fewer consumables waste.

Reliable, industry leading 24-pin price/performance with best in class acoustics and ease of use

- 900 cps performance @ 10 cpi
- Best in class ribbon life (25M Characters) for less user intervention and lower operating cost
- Optional Open Pedestal Printer Stand

The S828 is the only printer in its class with a heavy-duty acoustically sealed unbreakable metal enclosure.

Printronix recently added the offering of the Fujitsu SIDM printers to complement the range. These printers are incredibly reliable and have a wide range of connectivity and paper handling options offering low-profile compact designs, and ultra-low energy consumption.

EVOLVING THE MULTI-PURPOSE DOT MATRIX PRINTER

- 24 wire dot matrix printer
- Achieves incredible reliabity
- Wide connectivity through different printer models
- Stylish compact design
- Amazing multi-copy capability

Fujitsu DL3100 High Spec Serial Dot Matrix Printer

PDC

VARIETY OF PAPER TYPES
Stock Forms (3.75" - 10.5" width)
Cut Sheet Papers (3.75" - 10.5" width)
Carbon Backed Papers (2P-7P)

HIGH SPEED PRINTING
The maximum print speed is up to 450 cps at 10 cpi. This is achieved through the advanced head control technology.

ENERGY SAVING
Also, The power consumption is 1.1W or less at the waiting mode and 37W or less at the operation (Average)

Printronix proudly services customers across various industries, specialising in supply chain aspects of the automotive, food and beverage, retail, transportation/logistics, and government and utility industries.

The reliable FUJITSU Dot Matrix Printer DL3850+ comes in a compact design. It features automatic paper parking and loading, auto tear off, the capability for bar code printing, and is well suited for professional and multi-part printing. With a high printing speed and the ability to print documents in sizes up to A3, the DL3850+ is suitable for every office environment.

FUJITSU

Fujitsu DL3850+ Serial Dot Matrix Printer

PDC

LONG LIFE
Printer - 5 million line-feed or 5 year
Printer Head - 400 million strokes
Ink Ribbon - 5 million characters

HIGH RELIABILITY
MTBF (Mean time between failures) -> 20,000 power-on hours at 25% duty cycle

VERY LOW NOISE OPERATION MODE
Double panel cover and newly developed print help to reduce noise.

These companies all have one thing in common they require non-stop, mission-critical printing and a robust printer that will be reliable, cost-efficient and rugged in often very harsh environmental conditions.

This is where the Printronix Industrial printers prove in durability, they are the best!

PDC wins Distributor of the Year at Honeywell Elevate Antalya 2024 Awards 4 Jun 2024
