

UJ's new CBE to provide practice-orientated commerce education

The newly unveiled College of Business and Economics at the University of Johannesburg aims to provide practice-orientated commerce education. The CBE will combine the strengths of the former UJ faculty of management and faculty of economic and financial sciences in teaching and learning as well as knowledge creation.

The CBE is also intended to engage on issues relating to poverty, inequality, and poor economic access while providing academic and practical solutions to business and economic problems in Africa.
