The awards are an important national platform to showcase and promote those individuals, organisations, products, and services that are doing good for ‘people and planet’.

“Each year it becomes increasingly important and effective for us as individuals to play our part and contribute to solving today’s environmental challenges, and we can do this by leveraging our consumer spending power and supporting those that are committed to building a sustainable society and environment,” says David Parry-Davies, editor of *The Enviropaedia* and founder of the Eco-Logic Awards.

2023 Eco-Logic Award finalists

9 Oct 2023
