

iiDENTIFii selected for JSE Enterprise Acceleration Programme

iiDENTIFii, a remote biometric digital facial authentication and automated onboarding technology company, has been selected for the JSE Enterprise Acceleration Programme.

Companies with a turnover of R20m or less that want to grow market share, access funding and improve competitiveness are eligible for the accelerator programme.

iiDENTIFii is one of only 12 highly innovative businesses selected for the programme. Participants will receive expert mentoring from local and international mentors through structured group sessions, masterclasses and webinars.
