Choose #IBuyVerified

If your location provider says your digital location campaign is being accurately served in a geofence, all you can do is take their word for it, right?

Wrong! Don't take claims at face value. You can – and must – ask for 3rd party verification.

Vicinity Media is SA's only independently verified location provider with a 100% accuracy rating, and we want to champion industry-wide transparency.

We will pay for 3rd party verification on any digital location campaign, whether it's our campaign or not.
