

# AWS Solutions Architect

<b>Remuneration:</b>	R8000 - R90000 per month
<b>Location:</b>	NA
<b>Remote work:</b>	Only remote work
<b>Education level:</b>	Degree
<b>Job level:</b>	Senior
<b>Type:</b>	Permanent
<b>Company:</b>	<a href="#">PikUniq</a>

**Attention:** Please note that the hiring team responsible for this position will be using the PikUniq platform for candidate screening and conducting one-way interviews.

**About the role:** Design, architect, and deliver secure, efficient cloud solutions as a Senior AWS Solutions Architect remote within South Africa. Collaborate with clients, lead Well Architected Reviews, and guide migrations.

## Responsibilities:

- Guiding clients to the cloud: conduct migration readiness assessments to ensure smooth transitions to AWS.
- Optimising existing solutions: lead well architected reviews (wars) for existing workloads, maximising performance and efficiency.
- Collaborative problem-solving: partner with clients through technical discovery calls to understand their challenges and current infrastructure.
- Architecting for success: design and cost high-impact solutions leveraging the aws well architected framework and best practices.
- Knowledge sharing: contribute to client-facing content and deliver training sessions to empower clients with AWS expertise.
- Client champion: take the lead in solution architecture, ensuring clients receive the best possible guidance and support.

## Minimum requirements:

- Technical background: A degree in computer science, engineering or a similar field.
- Proven AWS expertise: Hold the AWS Solutions Architect Professional Certification.
- Solid experience: Seven + years as a solutions architect or software engineer with two + years specifically in AWS solutions architecture and presales.
- Mastery of AWS concepts: Proficiency in well Architected Reviews and Migration Readiness Assessments.
- Deep understanding: Possess a thorough grasp of the AWS Cloud Adoption Framework and Well-Architected Framework.
- Communication is key: Excellent client-facing skills and the ability to translate complex solutions into clear, actionable plans for AWS environments.
- Broad technical expertise: Experience with various operating systems, databases, Web applications, and serverless technologies is a plus.
- Continuous Learning: A willingness to stay ahead of the curve and master new technologies quickly.

## Bonus:

- AWS DevOps Professional certification and other AWS certifications.
- TOGAF certification demonstrates your understanding of enterprise architecture.
- Automation expertise: Experience with automation tools, data analytics, and machine learning in the AWS Cloud.
- Migration savvy: Familiarity with AWS migration tools like CloudEndure and Migration Evaluator.

**Skills:**

- AWS
- Solutions architect
