

Nashua wins Best Stand at Africa Print Expo

Nashua Limited was recently recognised as the best exhibition stand (large category) at the Africa Print Expo, a commercial and digital print expo, which took place 14-15 March 2012 in Durban, South Africa. Winners of the various stand awards at the expo were chosen after extensive tours of the exhibition by an independent judge from the Durban International Convention Centre. In looking for a winning design, each stand was judged on their design, extent of construction, addition of special effects, visitor traffic, accessibility and overall presentation of product.
