

AfricaCom Awards 2015 - call for entries

The 7th Annual AfricaCom Awards highlight industry leaders and innovation in African communications. This year the awards are taking place on 18 November, at The Lookout, on Cape Town's Waterfront...

With an average of some 200 entries per annum, the Awards provide an unparalleled showcase for displaying and heralding the telecommunications sector's corporate and individual heroes and heroines.

"These Awards are a vital cog in the entire industry's ecosystem," commented Adam Thompson Head of Content, Com World Series, "they are an effective means of objectively shining the light on some of the most ground-breaking and important developments in this sector. Voted on by peers and an independent panel of judges, the winners are selected against stringent criteria, which give further credence to the importance of these credits."

Two key categories attracting prominence in this year's line-up are the 'Best Connectivity Solution for Africa' and the Changing Lives Award.
